## AVM-2000 Price Sheet Continued . . .

Purchase of the **Annual Maintenance Agreement** will cover all basic support issues and maintenance updates for a period of 12 months. See our Support Policies for more detailed information:  
<http://www.tangoware.com/support/policies.html>

TangoWare is happy to complete your registration by phone with a valid MasterCard or Visa.

Note to foreign purchasers: TangoWare can complete your registration with valid MasterCard or Visa; a bank transfer in US Funds; a certified bank check in US Funds; or a company check in US Funds DRAWN on a US BANK.

NOTE: All company check payments must clear before permanent registration information will be supplied.

**Brief Description of the optional modules:** (See our website at <http://www.tangoware.com/avm2000/options.html>)

Our **Security** module will allow you to set up Menu and Control permissions for each user in your AVM-2000 system. Without Security, all users are permitted full access to all data, screens and functions of the AVM-2000.

The **Print-to-File Module** allows users to create PDF, RTF, HTML, Word2000.DOC®, Excel2000.XLS® and plain TXT files from many AVM-2000 printouts. In addition, users can email these files directly from AVM-2000 with no additional software required. (NOTE: Requires SMTP address of your ISP's mail server.)

The **QuickBooks® Integration Module** allows users to send AVM-2000 Customers, Invoices, Credit Memos, Vendors, POs and Expenses, ROs and RGOs to QuickBooks® to prevent double-entry into both systems. Works with QuickBooks® versions 2008 to 2011.

The **ATC Module (Attendance Time Clock)** allows ALL Employees to clock in and out of the AVM-2000 in place of using a standard time clock. Integration with Work Orders available for technicians. Hour reports available for input to your Payroll system; issue and track Sick, Vacation, Personal, Comp, Holiday hours; and more. AVM-2000 Employee ID Badges and WO Worksheets may be scanned with a bar code reader capable of reading 3 of 9 bar code font. (Bar Code reader must be purchased separately from a third-party vendor.)

The **EDS Module (Electronic Document Storage)** allows you to use Adobe® Acrobat® software in conjunction with the AVM-2000 software to attach electronic documents, images and files against a specific AVM-2000 record, such as a PO, RO, Invoice, Work Order, Manual, etc. using PDF file format. (Note: Price of Adobe® Acrobat® software not included in option price; it must be purchased separately from a third-party vendor.)

The **Electronic Signatures** module provides users with the ability to print "electronic signatures", in the form of an electronic image of users' signatures, on documents in AVM-2000. Works with the optional **Security** module.

The **Batch/Lot Tracking Module** allows you to trace and accurately cost your small parts inventory items.

The **Label Printing Module** allows you to print Inventory SKU Labels, Address/Shipping Labels for Vendors and Customers, and a Component ID label for WO components to a dedicated label printer. SKU bar codes may be read with a bar code reader capable of reading 3 of 9 bar code fonts. (Note: Label printer / bar code reader / supplies purchase not included; must be purchased separately from a third-party vendor.)

The **Checkbook Module** allows you to manage multiple bank accounts, print vendor checks, create deposits from customer payments, print a checkbook register, reconcile your bank statement, and more.

The **TBO Components Module** allows you to track life-limited aircraft components for any number of aircraft. Components can be tracked using any combination of time, cycles or calendar date. User will specify days, hours and/or cycles for Forecast Reporting, which may also be restricted to specific aircraft, a group of aircraft and/or specific components.

Review our **Support Policies** for Annual Maintenance Agreement and Technical Support information for more detailed information. See our website at: <http://www.tangoware.com/support/policies.html>
